

Følg nedenstående vejledning for at aktivere cookies i Firefox på Mac

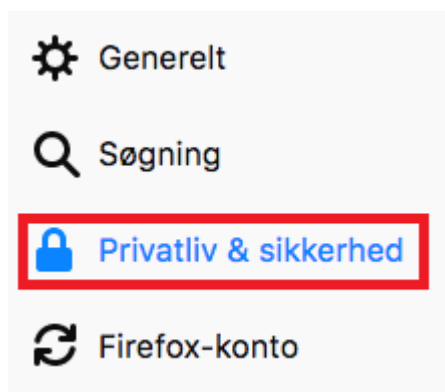

1) Åbn **Firefox**

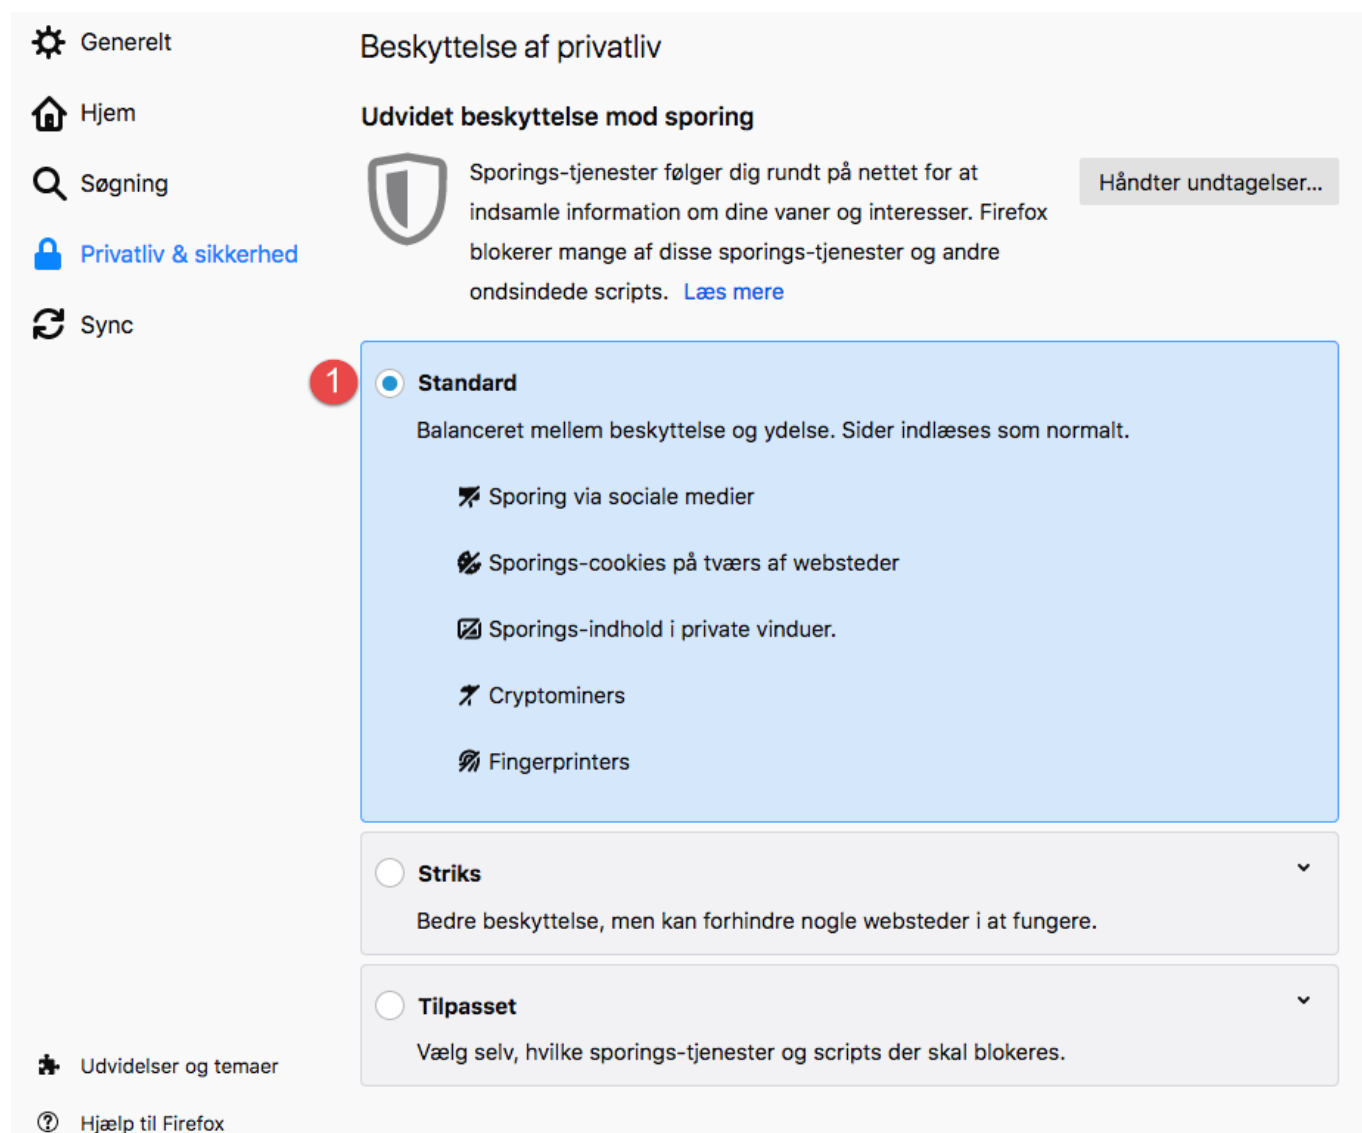

2) Tryk på **Firefox** øverst til venstre og vælg **Indstillinger**

3) Vælg **Privatliv & sikkerhed** i menuen til venstre.

4) Vælg **Standard**

The screenshot shows the Firefox 'Privacy and Security' settings page. On the left is a sidebar with icons and labels: 'Generelt' (gear), 'Hjem' (house), 'Søgning' (magnifying glass), 'Privatliv & sikkerhed' (lock, highlighted in blue), and 'Sync' (circular arrows). The main content area is titled 'Beskyttelse af privatliv' (Privacy Protection). Below this is the section 'Udvidet beskyttelse mod sporing' (Enhanced Tracking Protection), which includes a shield icon and text explaining that tracking services follow users to collect information. A button 'Håndter undtagelser...' (Manage exceptions...) is on the right. A red circle with the number '1' points to the 'Standard' radio button, which is selected. Below it, a list of tracking features is shown with checkboxes: 'Sporing via sociale medier' (disabled), 'Sporings-cookies på tværs af websteder' (disabled), 'Sporings-indhold i private vinduer' (checked), 'Cryptominers' (disabled), and 'Fingerprinters' (disabled). Below this list are two other options: 'Striks' (disabled) and 'Tilpasset' (disabled), each with a dropdown arrow. At the bottom left of the sidebar are 'Udvidelser og temaer' (puzzle piece icon) and 'Hjælp til Firefox' (question mark icon).

Udvidet beskyttelse mod sporing

 Sporingstjenester følger dig rundt på nettet for at indsamle information om dine vaner og interesser. Firefox blokerer mange af disse sporingstjenester og andre ondsindede scripts. [Læs mere](#)

Håndter undtagelser...

1 ☒ **Standard**

Balanceret mellem beskyttelse og ydelse. Sider indlæses som normalt.

- ☐ Sporing via sociale medier
- ☐ Sporingcookies på tværs af websteder
- ☒ Sporingindhold i private vinduer
- ☐ Cryptominers
- ☐ Fingerprinters

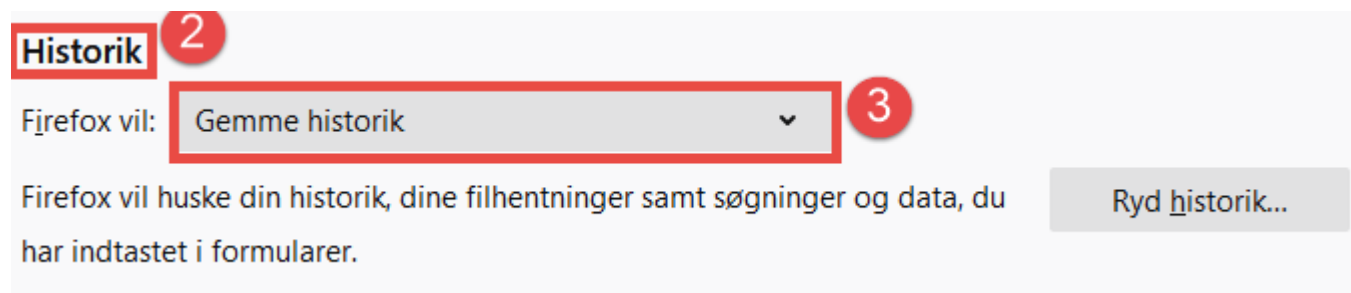

☐ **Striks**

Bedre beskyttelse, men kan forhindre nogle websteder i at fungere.

☐ **Tilpasset**

Vælg selv, hvilke sporingstjenester og scripts der skal blokeres.

4) Rul ned til punktet **Historik** vælg **Gemme historik**.

The screenshot shows the 'History' section of the Firefox settings. A red box highlights the 'Historik' header, and a red circle with the number '2' is next to it. Below the header, the text 'Firefox vil:' is followed by a dropdown menu. A red box highlights the dropdown menu, and a red circle with the number '3' is next to it. The dropdown menu is currently set to 'Gemme historik'. Below the dropdown, there is text explaining that Firefox will remember the user's history, search queries, and data entered in forms. A button 'Ryd historik...' (Clear history...) is on the right.

Historik

Firefox vil: **Gemme historik**

Firefox vil huske din historik, dine filhentninger samt søgninger og data, du har indtastet i formularer.

Ryd historik...

Bemærk! Du skal lukke Firefox for at ændringerne slår igennem.
